EXTRA MONEY FOR YOU!

FROM NOW ON, THE BUCK STOPS HERE.

So i've been listening to the song "My Way" a lot lately (the ELVIS version, ya weirdo) and i think it finally makes sense! There is a bunch of secret code in there that took my 43 years on gods green earth to figure out....

IT'S ALL ABOUT CUSTOMIZATION.

(over) Allow me to explain (normally this information costs thousands of dollars but since you ~~peeked~~ picked this up, you get it for free right here right now)

BEGIN LESSON/ the following is an excerpt from the Book Of The Cringe, chapter 11 v.5, reprinted here for your convenience

Anything becomes limited edition and desirable once it has been customized to YOUR personal preferences, and knowing this information and truly utilizing it will lead you to be able to quit your job and travel the world within months or even days (IF you're into that stuff). Worst case scenario you could buy up old wrestling figures, give them a custom fresh paint job and flip 'em on ebay. BURN THIS AFTER READING RESULTS GUARANTEED.

ACTUAL PHOTO OF CULTURE CRINGE (™) STOCK HEADQUARTERS!!! THIS ISSUE'S ADVICE FROM CRINGEY IS:

included HERE in this issue FOR FREE is a special excerpt from CRINGEY'S (™) new book!!! The book is called "On The Observance of the Fashion Concerning America's Workforce" and is destined to become required college reading. Info coming soon on how to preorder!!!

You'll notice, tho, that truck-drivers and other guys in strenuous occupations have learned where to wear their pants. The belt's down on the hips, just above the hip-bones, about level with the belly-button. That's not just so they can strut, it's more comfortable. Even wild savages got more sense than to wear their breechcloths in a tight band around their tummy muscles.

SUPER SPECIAL EDITION DATING ADVICE!!! Never before printed but here it is, secrets that have been around mankind for centuries and the others were afraid to print!! WHEN you find someone you like, tell them that you like the way they walk. Then, without missing a beat, give them a half smile and say "I like the way you talk." WORKS EVERY TIME thank me later DO NOT SHARE THIS INFO with anyone (™) xoxoxo Cringey

in case you haven't heard, this edition sounds better on vinyl.

CULTURE CRINGE PRESENTS A DISSERTATION ON THE PURPOSE OF THE WEREWOLF

PRINTED IN THE BOOK OF THE CRINGE CHAPTER 45 v.7)

BREAKING ~~WIND~~ NEWS (OR 'FULL MOON FEVER' AS ORIGINALLY

This country is unfortunately missing a unique opportunity to utilize the services of the werewolf population. Of course, the last census failed to give an exact idea of how many lycanthropes there are here, but no evidence ~~exits~~ exists that this singularly hardy breed has died out; and occasional stories from the backwoods regions indicate that at least SOME must have migrated to this part of the world. It seems a pity to let them spend their lives in the traditional useless way when they could be serving the nation in a manner to bring them honor and respect.

Everyone wants them. Delightful pets.

PROS of the werewolf:

1) night vision
2) transverse difficult terrain
3) keen sense of smell
4) doesn't need equipment
5) doesn't need prepared food/rations
6) ALMOST invulnerable
